

TUITION-FREE?

Elementary students who meet the following criteria are eligible to take one tuition-free morning academic course. All afternoon activity programs are fee paying.

Your child must:

be a Canadian Citizen, permanent resident or convention refugee

have attended a BC school in the 2022-2023 school year and ordinarily reside in BC with a parent/guardian

have a BC Personal Education Number (PEN)

Those not eligible, or those signing up for courses requiring fees can pay by Visa or Mastercard.

Transfers & refunds must be made by July 7.

Learning Support

If your child has an IEP and/or a Fraser Health Care Plan or Consultation Report and is currently receiving additional learning support from an Education Assistant at school, we encourage you to register online before May 12 to ensure adequate support is available.

First priority for students requiring additional learning support will be given to Burnaby School District regular session students.

Course Locations & Cancellations

Courses and their locations cannot be

IMPORTANT INFORMATION

FOR NON-BURNABY SCHOOL DISTRICT STUDENTS OR RECENTLY ENROLLED BURNABY SCHOOL DISTRICT STUDENTS (REQUIRED EVERY YEAR, EVEN IF PREVIOUSLY ATTENDED SUMMER SESSION)

A pre-approval form must be filled out on the burnabyschools.ca/summersession website to be able to select courses online. This link is available as of February 21, 2023. Upon approval, you will receive notification about your eligibility to register for Summer Session courses with the Burnaby School District.

Please be sure to have the following documents ready during the online registration process:

Proof of student's birth date: birth certificate or passport

Proof of guardianship: parents' or guardians' as shown on birth certificate or other appropriate legal documentation such as landed immigrant papers or guardianship "order" granted by the courts

Proof of citizenship for both parent and the student: Canadian birth certificate, citizenship card, passport, landed immigrant document, permanent resident card

Proof of residency of the parent/guardian and student. Two pieces required, with at least one being from Category A:

Category A: proof of ownership of dwelling (i.e. purchase contract, property assessment, annual municipal utility/tax statement); long term lease/rental agreement; parent or guardian's income tax return or notice of assessment from Revenue Canada

Category B: BC Hydro bill, BC cable bill, provincial driver's license, provincial registration of automobile, Canadian bank account or credit card statement

Copy of student's most recent school marks: report card or transcript of academic record

BC Personal Education Number (PEN)

IEP (Learning Support, if applicable)

Adventures in Music

Come and spend your mornings playing with music! This class uses a variety of methods to learn music. You will play musical games outside and then come inside to play rhythms and melodies on a variety of instruments.

Adventures in Reading

Develop an appreciation for the enjoyment

Fibre Arts & Design

This course will provide opportunities for students to explore a series of fibre related activities which may include spinning wool, sewing, felting, crocheting and design thinking. Students will engage in creative and cooperative challenges and will develop hands-on skills in several areas.

French Introduction (Intermediate)

Looking to maintain or improve your child's French during the summer? Thinking about Late French Immersion?

This activity-centered and communicative-based course will keep students moving and having fun in French. Open to beginners and novice students.

Get Ready for Grade 1

Students who have completed the course will receive a certificate of completion. For more information, please contact the school.

Rec & Read

Students will enjoy reading activities while enjoying a variety of activities in the great outdoors.

Rec & Write

Students will enjoy writing activities while enjoying a variety of activities in the great outdoors.

Robotics & Design

Using VEX IQ robots and Tinkercad, students will build and program robots as well as a variety of electronic units. This class will focus on building electronics, technology, teamwork and thinking skills.

Robotics - Scratch/Sphero

Using Scratch online coding and Sphero robots, students will work in teams to solve problems, do online animation, program and use robots. This class will focus on building teamwork and thinking skills.

Robotics - VEX IQ

Students will work in teams to build online code, put together and program robots and solve problems. This class will focus on developing technology, teamwork and thinking skills.

Rock Band

Rock out this summer! Play, sing and perform your favourite rock and pop songs. We provide everything you need – guitars, bass, keyboards, drums and microphones for singers!

It's a great way to improve your technique and learn pro tips for performing with a group if you already play or sing and a fun introduction to being in a band even if you're new to an instrument. Our fun three-week

program covers different eras so you'll learn new songs too! The final day is a real rock concert in the gym for students and staff!

Sewing

Learn the basics of sewing such as threading the machine, basic stitches, and sewing using woven fabric. Projects will be fun, engaging and practical, and introduce students to the creative world of sewing. Students will learn to make face masks, scrunchies, some cool pajama shorts and more!

Sports & Rec

Continue to develop your physical abilities through a variety of athletic activities. Skill development, game strategy, physical fitness and recreation opportunities will help you hone your athletic skills.

Learn the health benefits of regular physical activity and how to access opportunities to be active in the school and community through this fun and informative course.

Uke Got It! Ukulele

Students will be introduced to the soprano ukulele, learning how to fingerpick songs and play chords. The repertoire will consist of pop music and include songs featuring both boom whackers and ukulele.

Participants will work in small ensemble groups to learn song arrangements. Ukuleles will be provided; Ensemble jam sessions, and fun educational games included!

Woodworking

Learn how to cut, measure, and fasten pieces of wood together. This course teaches you how to safely explore the workshop and all of its possibilities. You will learn how to design, construct and test your own designs using saws, hammers, drills, presses, etc.

Drama/Musical Theatre

Are you interested in drama and improv?
Are you interested in participating in a play or musical? Students will have an opportunity to build their own sets and props during art activities and perform in their own play or musical.

Electronics

Students will have the opportunity to work with 3D printers, robots, digital photography, and Arduino, along with a variety of other electronic gear to make electronics projects. This Makerspace approach will use groups and the interests of students to design and build a variety of projects.

Engineering and Machines

This course will have students take part in hands-on mechanical engineering activities. Ideas will go through a design process, followed by construction, analysis and redesign. Projects will use simple tactile materials and incorporate the fundamentals of simple and complex machines.

Enrichment Art

This program offers flexibility, differentiated instruction, community building, skill building and self-discovery through visual arts, while incorporating some "outside the box" opportunities for arts exploration. Students will discover what they love about creating and appreciating art and how art influences their lives and learning.

Hip Hop and Health

Hip Hop and Health is an exciting class that will not only teach your child some fun dance moves, but will also focus on healthy living.

The first half of the class will start with a thorough warm up, and will then move on to

learning some of the latest hip hop moves. The second half of the class will involve discussions around the importance of exercise, sleep and nutrition to maintain a healthy body.

Minecraft

Explore the best-selling computer game of all time while you learn about programming, as you acquire resources to build the world and maintain health.

Movie Making

Use iPads to create short films! This class will be like a film school where students learn how to cut and edit, storyboard, add visual and audio effects and how to present a variety of types of information and emotions.

Sewing & Fashion Design

Unleash your creativity by designing your own clothes using sewing machines. Students will learn to construct a garment with different type of fabric and how the choice of specific fabric affects the overall aspect of a design.

Students will learn how to add details to their finished product to make it truly unique. For this class, a knowledge of basics is recommended (such as threading a machine).

Ultimate Frisbee

Come and learn a game you can play for the rest of your life! The focus will be on physical wellness, sportsmanship and learning basic skills to play Ultimate Frisbee. Be prepared to be outside running everyday!

Visual Arts

Students will learn to work with a variety of materials to create functional and sculptural artwork pieces. Materials could include clay,
